

BOOMBurger Halifax Statement on COVID-19 – update

June 6, 2020

We are happy to re-open our restaurant on a limited seating basis to respect the need for social distancing. We are one step closer to normal operations and regular service to our awesome customers!

We are following the NS Restaurant guidelines on COVID re-opening . There are a number of ways we are managing in this situation:

Staff:

- We are wearing masks whenever we are open to the public ...please thank our staff for helping keep you safe...wearing masks all day is important but not that much fun!
- Staff are advised not to come to work if they are not feeling well
- Staff are respecting social distancing as much as possible

In store cleaning and sanitization:

- We already had high cleaning standards. We have heightened them and are conducting hourly (or per use) cleaning and sanitization of key high touch areas.
- Additional handwashing above our normal standard
- We endeavour to clean each table/picnic table after each use

Social distancing:

- Big signs on the front windows to allow customers to understand our offering without having to come into the restaurant
- Social distance markers to help customers understand the flow and where to stand
- Tables and picnic tables are set up socially distanced

Thank you for supporting our small local business during this very interesting time. So enjoy a burger and then go have an ice cream will ya? 😊

Thank you,

Andrew MacIsaac
Managing Partner
